

## MARINE ACTIVES

### COLLAGENNA

*Marine native collagen*

Solution of soluble type I native collagen extracted from fish skin.

- Moisturising
- Maintains elasticity and firmness of the skin
- Conditions and protects the hair

=> Powder measured at 44% collagen

=> Aqueous solution measured in 0.6 % collagen

### COLLAGENNA H

*Hydrolysed marine collagen*

Solution of hydrolysed collagen extracted from fish skin.

- Moisturising
- Nourishing
- Film-forming

### ELASTENNA

*High MW marine elastin*

Aqueous solution with 2,5 % elastin extracted from fish skin.

- Moisturising & Tensor

### ENNAPEPTID M

*Marine peptidic extract*

A solution of peptides extracted from fresh fish

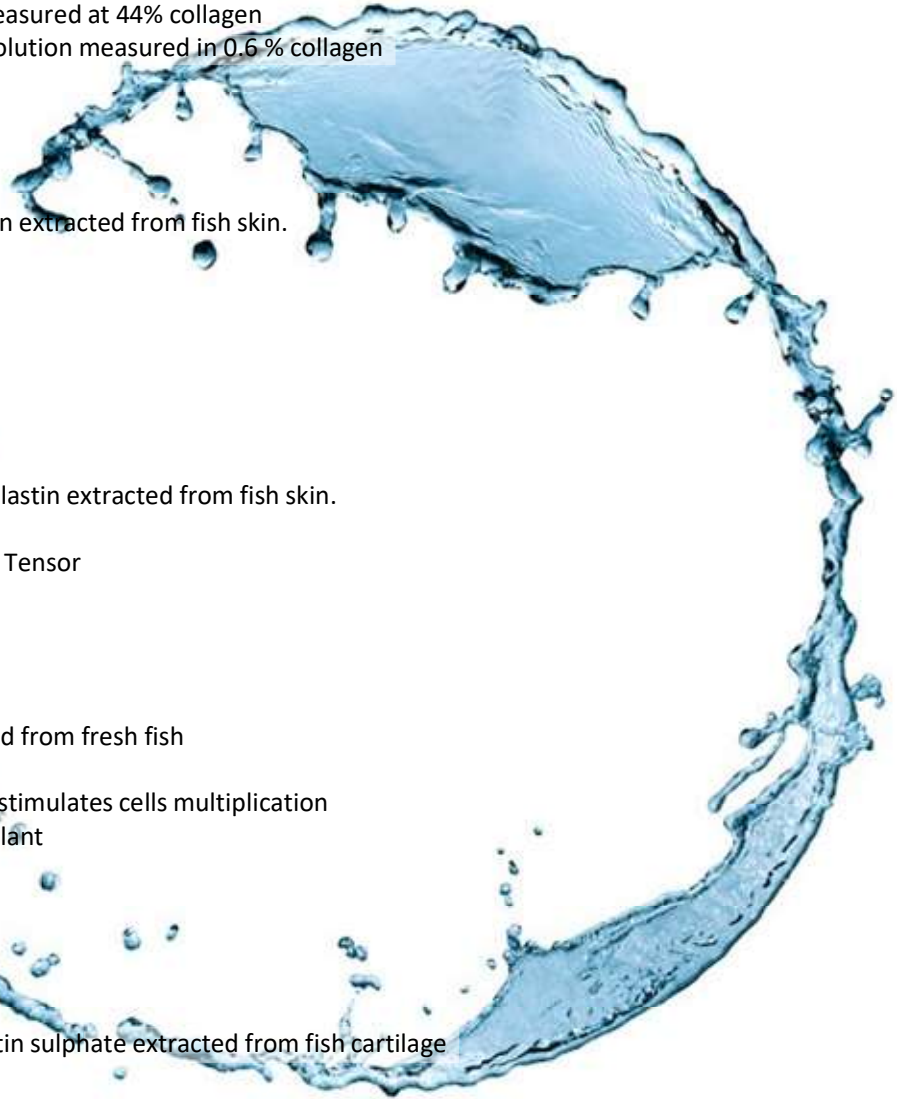

- Regenerating, stimulates cells multiplication
- Immuno-stimulant

### ENNAPURE CS

*Marine oligosaccharide*

A solution of chondroitin sulphate extracted from fish cartilage

- Highly moisturizing
- Film-forming, restructuring

## **MARINE ACTIVES**

### **CAVIAR EXTRACT**

A solution of pure caviar extractives obtained from certified sturgeon eggs

- Rich in precious and nutritive substances. Gives a luxurious and greedy touch

### **CHITENNA**

Top-grade chitosan extracted from fresh shrimp shells. Certified to be completely soluble.

- Film forming effects on skin and hair
- Reduces hair static charge
- Gives body to the hair
- Enhances a persistent skin smoothness
- Reduces skin irritations
- Stabilises emulsions and modifies the viscosity
- Increases the water-resistance of sunscreens
- Haemostat
- Antimicrobial for toothpastes, shampoos and deodorants

Cosmetic grade free flowing powder available in different viscosities (10, 110, 400, 1200 cps).

### **GLYCOSENA**

*Depolymerised marine oligosaccharide*

A solution of low molecular weight hydrolysed chondroitin sulphate extracted from fish cartilage

- Highly moisturizing, restructuring
- Stimulates cells growth, reduces skin sensitivity

### **PEARL POWDER**

A micronised pearl shells powder

- Improves the elasticity of the skin
- Anti-ageing
- Softening
